Simply Better

Simply Better

Smart Control

Experience AirTouch 5, your gateway to feel the comfort of smarter air conditioning control and smart home automation.

Climate Control from Anywhere

Built-in smart control technology helps manage temperatures and airflow for each room in your home, and can adjust your air conditioning with the weather.

Live in comfort and save energy at home, without having to think about it. Control your air conditioning from anywhere with app control.

Smart Zoning Smart Savings

Experience up to **55% energy savings*** on heating and cooling with AirTouch 5 and Intelligent Temperature Sensors.

Advanced Control

Gain granular control over your home's climate, ensuring that each room is conditioned only when needed.

Tailored Comfort

Enjoy personalized comfort in every area of your home while lowering energy bills.

Sustainable Living

Reduced energy usage not only cuts costs but also contributes to a positive environmental impact.

*Disclaimer

The energy savings figures presented on this webpage are derived from independent simulation studies conducted under idealized conditions and are based on specific assumptions, occupancy patterns, and climate data. Actual energy savings may vary due to factors such as building design, local climate, occupancy behaviour, and system maintenance. These estimates are not a guarantee of performance and should not be construed as a promise or warranty of specific energy savings.

Smart Days, Serene Nights: The AirTouch Lifestyle

Begin each day in perfect harmony as AirTouch gently awakens your home, adjusting lighting and temperature to create an inviting atmosphere with Routines.

8:30am
Off to School and Work
When you leave your house AirTouch turns off what you don't need.

2pm
Weather Changing
As the local weather changes, AirTouch takes care of the home climate, smartly adjusting it for optimum comfort and efficiency.

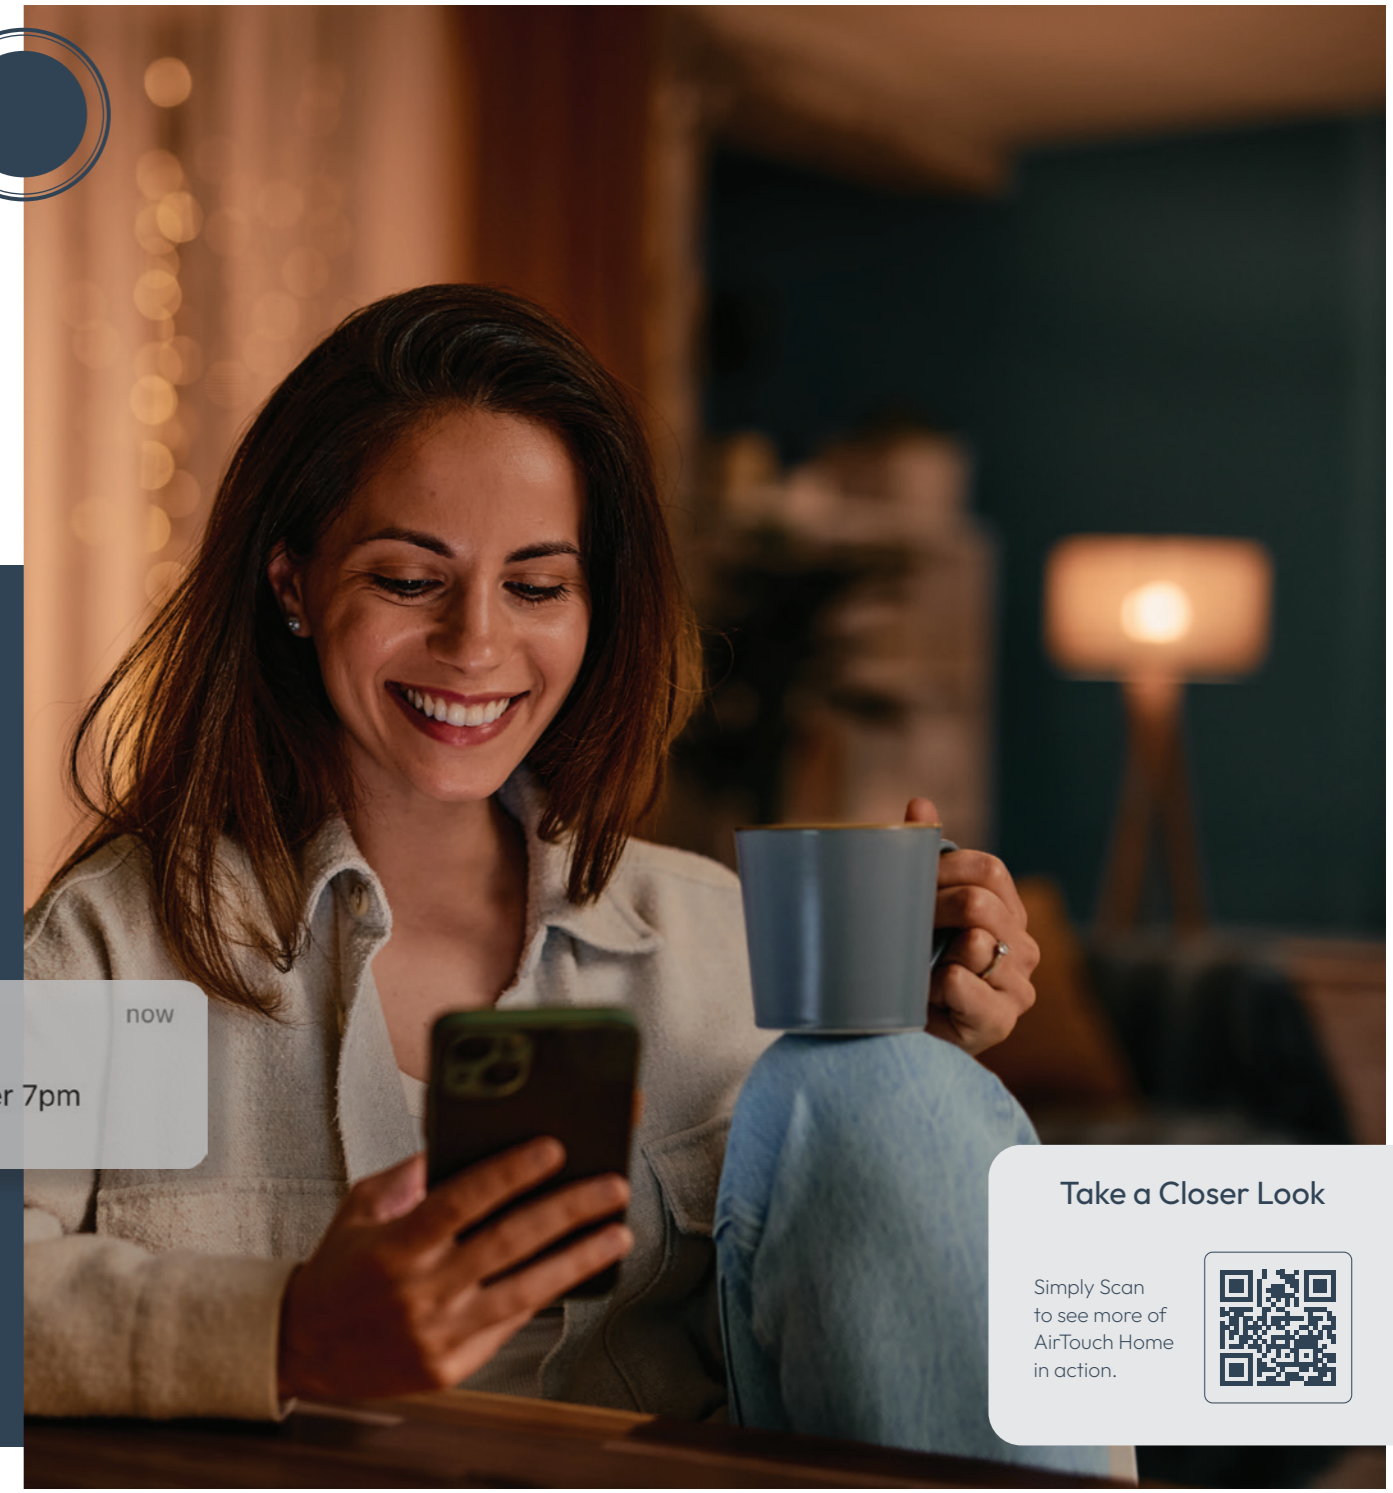

4:30pm
Senses your Arrival
AirTouch gets home ready for you, tweaking the temperature and turning on the lights.

7pm
As evening falls
AirTouch seamlessly transitions your space into a haven of relaxation: Dimming lights, fine-tuning the climate, for example:

Important Information

Requires AirTouch 5 or above for AirTouch Home smart integration. Product use and environmental factors may impact published performance and ranges for connectivity and battery usage.

Please note: AirTouch Doorbell, Indoor Camera and Outdoor Camera devices require an active Wi-Fi connection. AirTouch Smart Station must be connected directly to a router for wired network connection, to enable functionality of AirTouch Secure products. Performance specifications are approximate and may vary based on Wi-Fi strength, router configuration, environmental factors and installation. Please ensure compliance with relevant state surveillance and privacy legislation when installing or using cameras and audio-recording features.
