

# THE RIGHT VACUUM AT THE RIGHT PRICE

Tailored to suit individual needs and budgets, your investment in an Aussie Vac system may in fact cost less than the price of a portable vacuum cleaner that cannot deliver anywhere near the same level of cleaning power, indoor air quality and all round convenience.

An Aussie Vac ducted vacuum system - fully installed in your home - starts from around \$1500.

## Healthier Living Environment

Unlike portable vacuums which can re-circulate dust in your home, an Aussie Vac ducted vacuum system removes 100% of contacted dirt, dust, pollens and other allergens out of living areas – and into a drum usually located in the garage – to help improve indoor air quality as much as 61%\*.

- Asthma affects over 2 million Australians\*\*.
- Modern building methods do not promote natural ventilation.
- EPA studies show that indoor air quality can be two to five times worse than outdoor air!

\*EPA study shows frequent vacuuming and deep cleaning improves indoor air quality by as much as 61%  
 \*\* Source: The Asthma Foundation Victoria

## Extended Carpet Life

Aussie Vac ducted vacuum systems have up to 5 times more cleaning power than most portable vacuums. This ensures hard to shift dirt and dust will be removed from your valuable carpets and floor coverings, both prolonging its life and protecting your investment.

## Noise Reduction

The loud irritating noise produced by portable vacuums is dramatically reduced with an Aussie Vac system. The power unit is located well away from living areas, so you can vacuum without disturbing other activities in your home.

## Low Maintenance

Aussie Vac ducted vacuum systems do not need to be light and portable, therefore they are designed with a large 60 litre drum with a holding capacity many times that of a portable cleaner. The bag requires changing only 2 or 3 times a year and there are no messy filters to clean.

## Greater Convenience

Just plug your lightweight hose into any conveniently located vacuum inlet and power unit starts automatically.

- No more dragging around the portable
- No more electrical cords to fight with
- No more collisions with your furniture
- No more balancing on your stairs

Switch Hose Kit

## Greater Versatility

Clean up quicker with an Aussie Vac ducted vacuum system. It can be used just about anywhere.

- Carpets
- Polished floor boards
- Slate and tile floors
- Curtains and blinds
- Furniture
- Staircases
- All fresco's and garages
- Cars, caravans, even boats!

You only need a few well placed inlets to clean every part of your home, Use the utility point on your power unit to clean the cars and garage. An Aussie Vac will simplify your weekly cleaning routine; you will even dust and sweep less often.

## Stress Free Installation

Installation methods are so simple that most systems can be installed in any new or existing constructions in just a few hours. Aussie Vac also supplies complete D.I.Y kits with detailed instructions should you wish to install your own system. Technical support is available from our friendly staff, just call!

3 point DIY Kit

## Increased Home Value

Your Aussie Vac power unit:

- Is made of heavy gauge galvanised steel to suit any location
- Is powder coated ensuring a long life finish
- Is built with the best quality components for trouble free operation

making it a permanent feature and excellent selling point of your home. An Aussie Vac will increase the value of your home - well in excess of the original purchase price.

## A Risk Free Decision

All Aussie Vac power units are covered by a genuine 5 year manufacturers warranty.

## 'No. 1'

Since 1972, Aussie Vac has been designing, manufacturing, and installing ducted vacuum systems backed up by excellent workmanship and customer service. This has made us the No. 1 ducted vacuum specialist for over 40 years. You can rest assured that our family owned and operated Australian company will still be here 30 years from now.
